## 2024 MANIFESTO

WE NEED A PEACEFUL REVOLUTION

VOTE AZANIA

## **“WE NEED A PEACEFUL REVOLUTION”**

We must take back our country from those who have captured our state, who rule this country by proxy. They are unelected and therefore illegitimate. We cannot be free if there is an unelected power above our government. They are exploitative! They use their vast power and influence to enrich themselves and to impoverish the people. They are subversive! They sabotage our economy and corrupt the moral fabric of our society.

Our country is not merely failing in the hands of the corrupt and incompetent, we are being sabotaged and subverted!

Here is the Peaceful Revolution!

Jobs, land, houses, schools, etc. are empty political promises, unless we address the root cause of why the ANC government has failed to deliver these same promises for 30 years!
